ABOUT

Oilchem Group is a diversified business organisation with hard-earned reputation for excellent business practices, service quality, service delivery and high performance products. Our excellent business operations create value and superior financial results for our clients and stakeholders.

Incorporated in September 2006 as Oilchem Drilling Fluids Ltd, Oilchem strives for world-class performance and cost effective operations. Today, Oilchem Group operates in South Asia, Middle East and Nigeria. We provide drilling and completion fluids engineering services to the national, independent and international Oil and Gas Companies.

Oilchem is in business to create value and achieve superior financial results for her customers and stakeholders .

Vision

To build a world-class business organization whose value and relevance to humanity remains timeless

Mission

To advance human well-being by delivering superior products and services at the best possible prices; this is our primary mandate

Oilchem

CORE VALUES

Research

We believe integrity is the foundation of our individual and corporate actions that drives an organization. We are a responsible corporate citizen committed to the health and safety of people, protection of the environment, and compliance with laws, regulations and company policies

- We honor our commitments.
- We are accountable for our actions, successes and failures
- We are honest and trustworthy

Team-Work

We believe teamwork leverages our individual strengths:

- We are committed to common goals
- We expect everyone to actively participate on the Oilchem team
- We value the diversity of our workforce
- We willingly share our resources .

Performance

We believe performance excellence will drive the results that differentiate us from our competitors.

- We focus on what is important
- We relentlessly pursue success
- We work hard, celebrate our successes and learn from our failures.

Innovative Technology

We believe innovative technology is the way to improve on our professionalism and the basis for our competitive advantage.

- We professionally look for new ways to improve our products services and processes
- We continuously learn research and develop new ways to improve performance.
- We improve by benchmarking and adopting best practices.

OILCHEM WELL COMPLETION SERVICES LIMITED

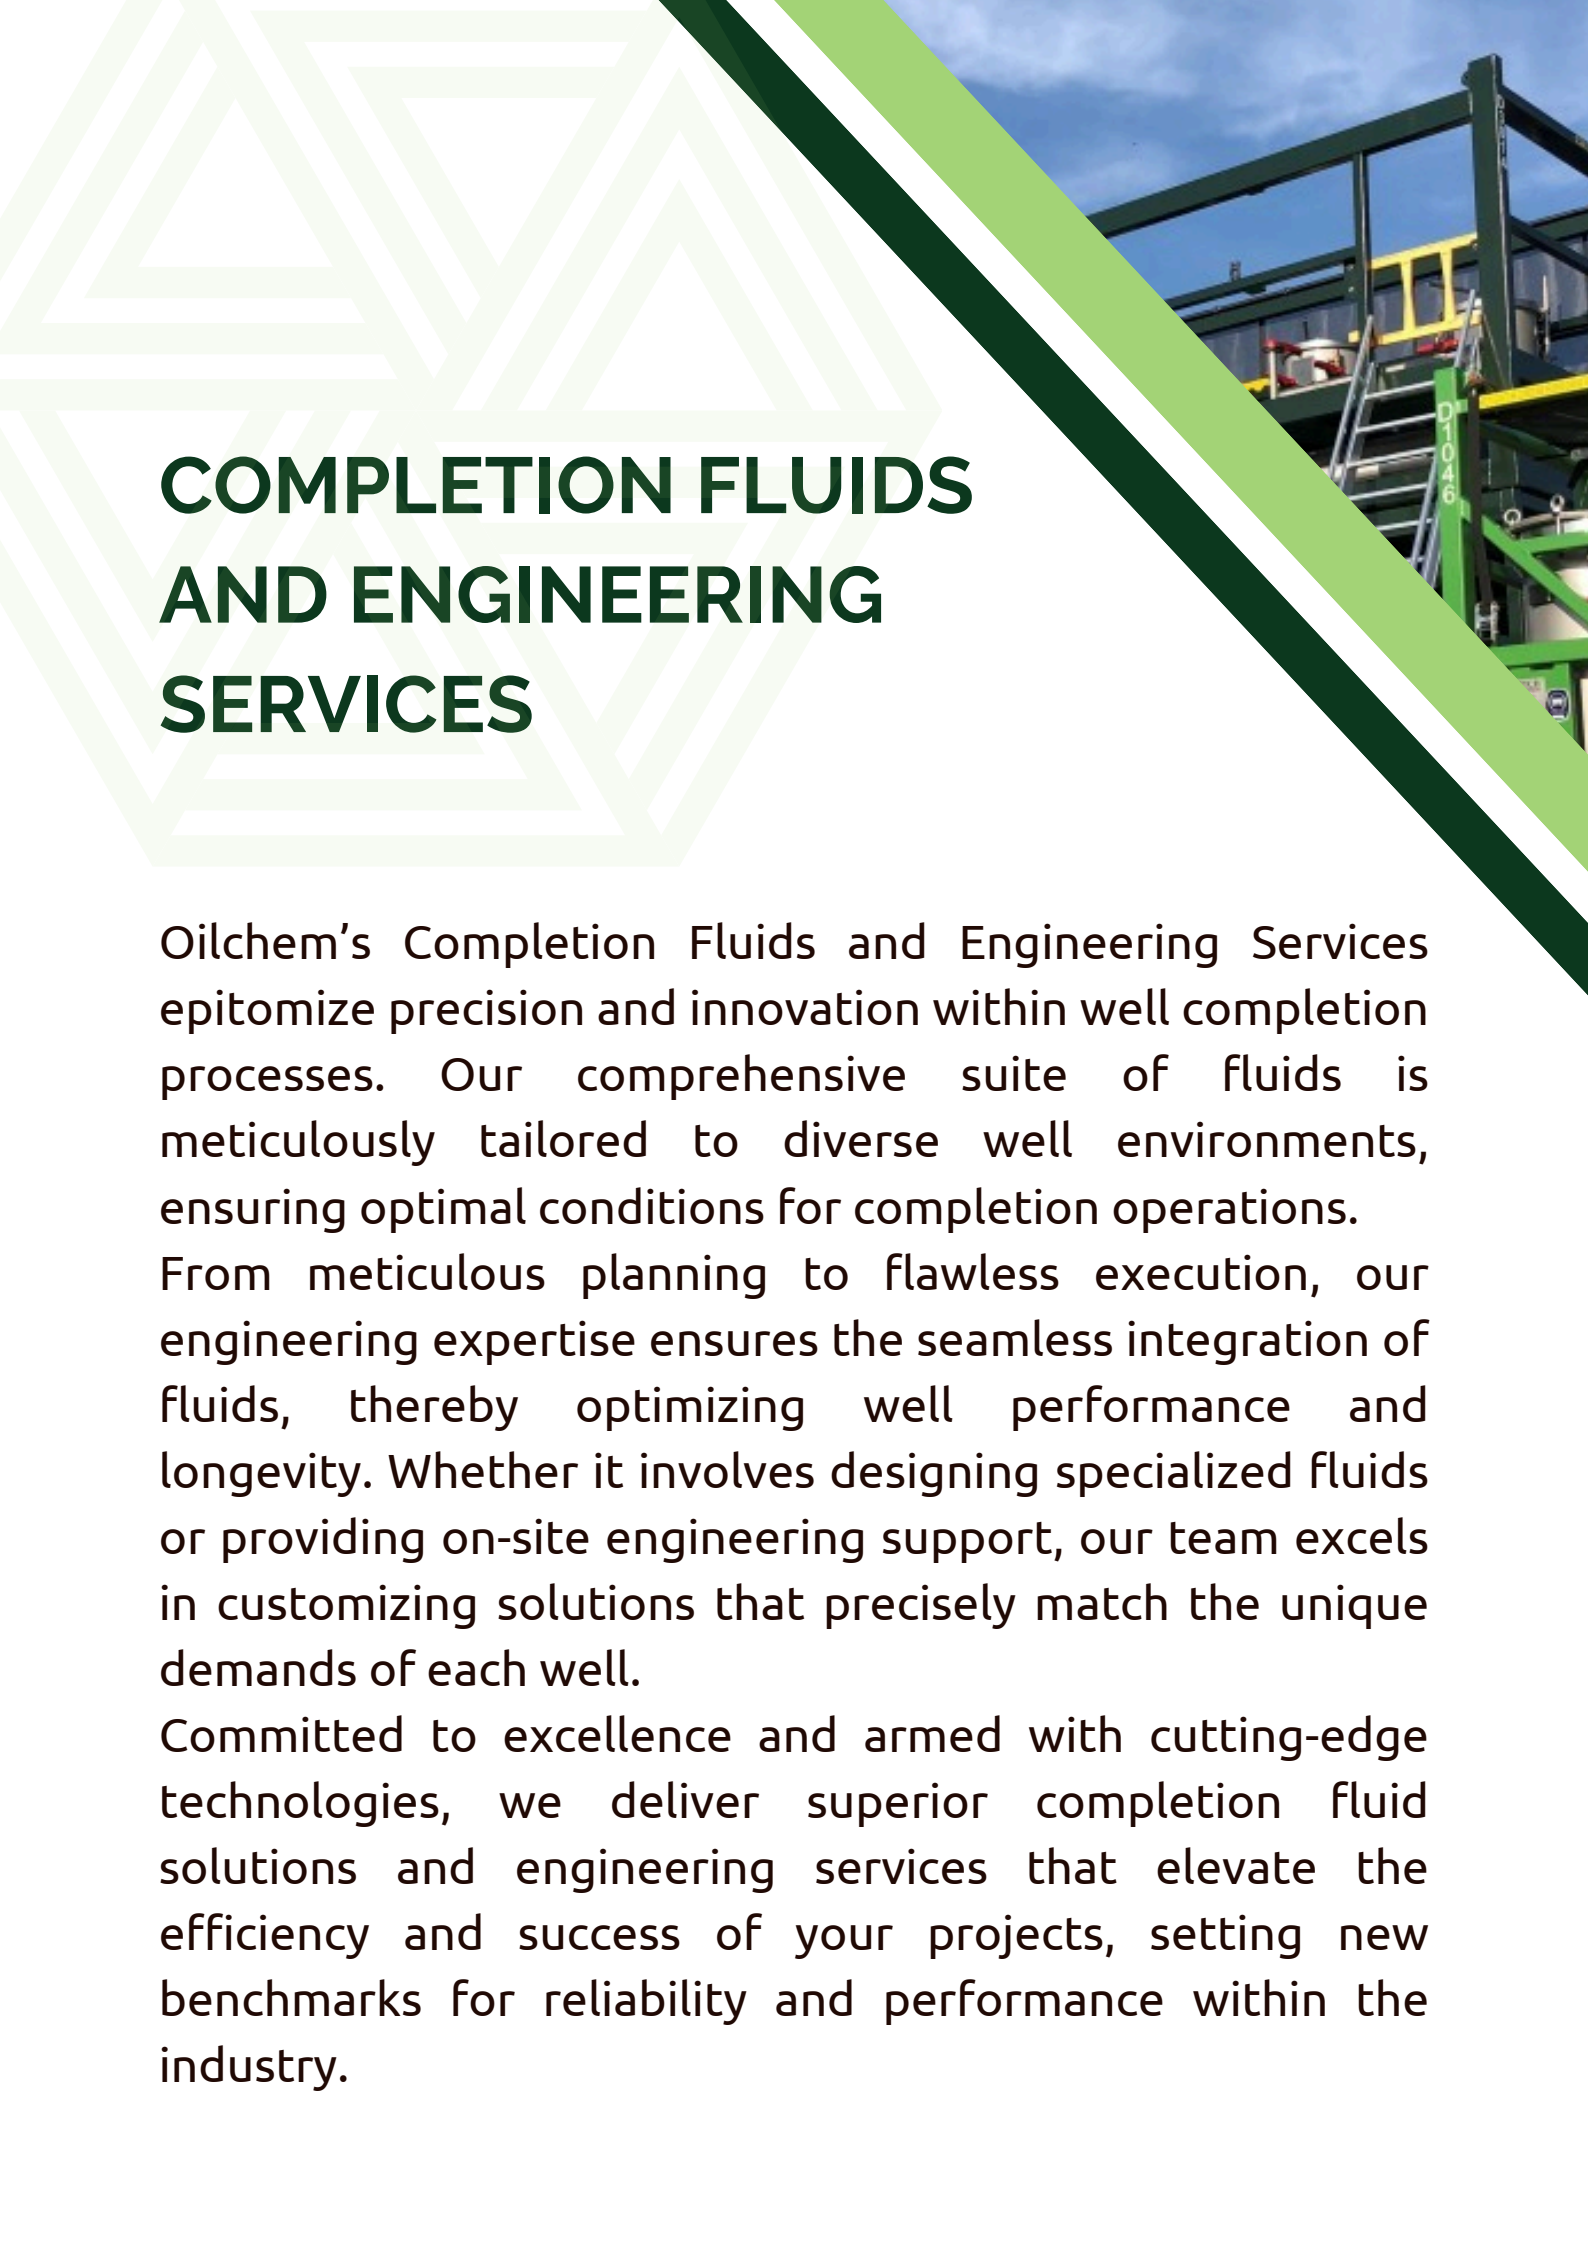

BRINE FILTRATION

At Oilchem, our Brine Filtration services represent the pinnacle of well performance optimization and environmental stewardship. Using state-of-the-art filtration technologies and meticulous processes, we purify brine solutions to eliminate impurities and contaminants, safeguarding well integrity.

Our expertise ensures that the brine utilized in well operations adheres to stringent quality standards, augmenting overall efficiency while minimizing environmental impact. Through our advanced filtration techniques and industry-leading proficiency, we guarantee the delivery of purified brine solutions, thereby facilitating seamless well operations and prolonging well life cycles.

By prioritizing quality control and sustainability, we contribute to an industry where responsible resource management is paramount, aligning well operations with environmental preservation.

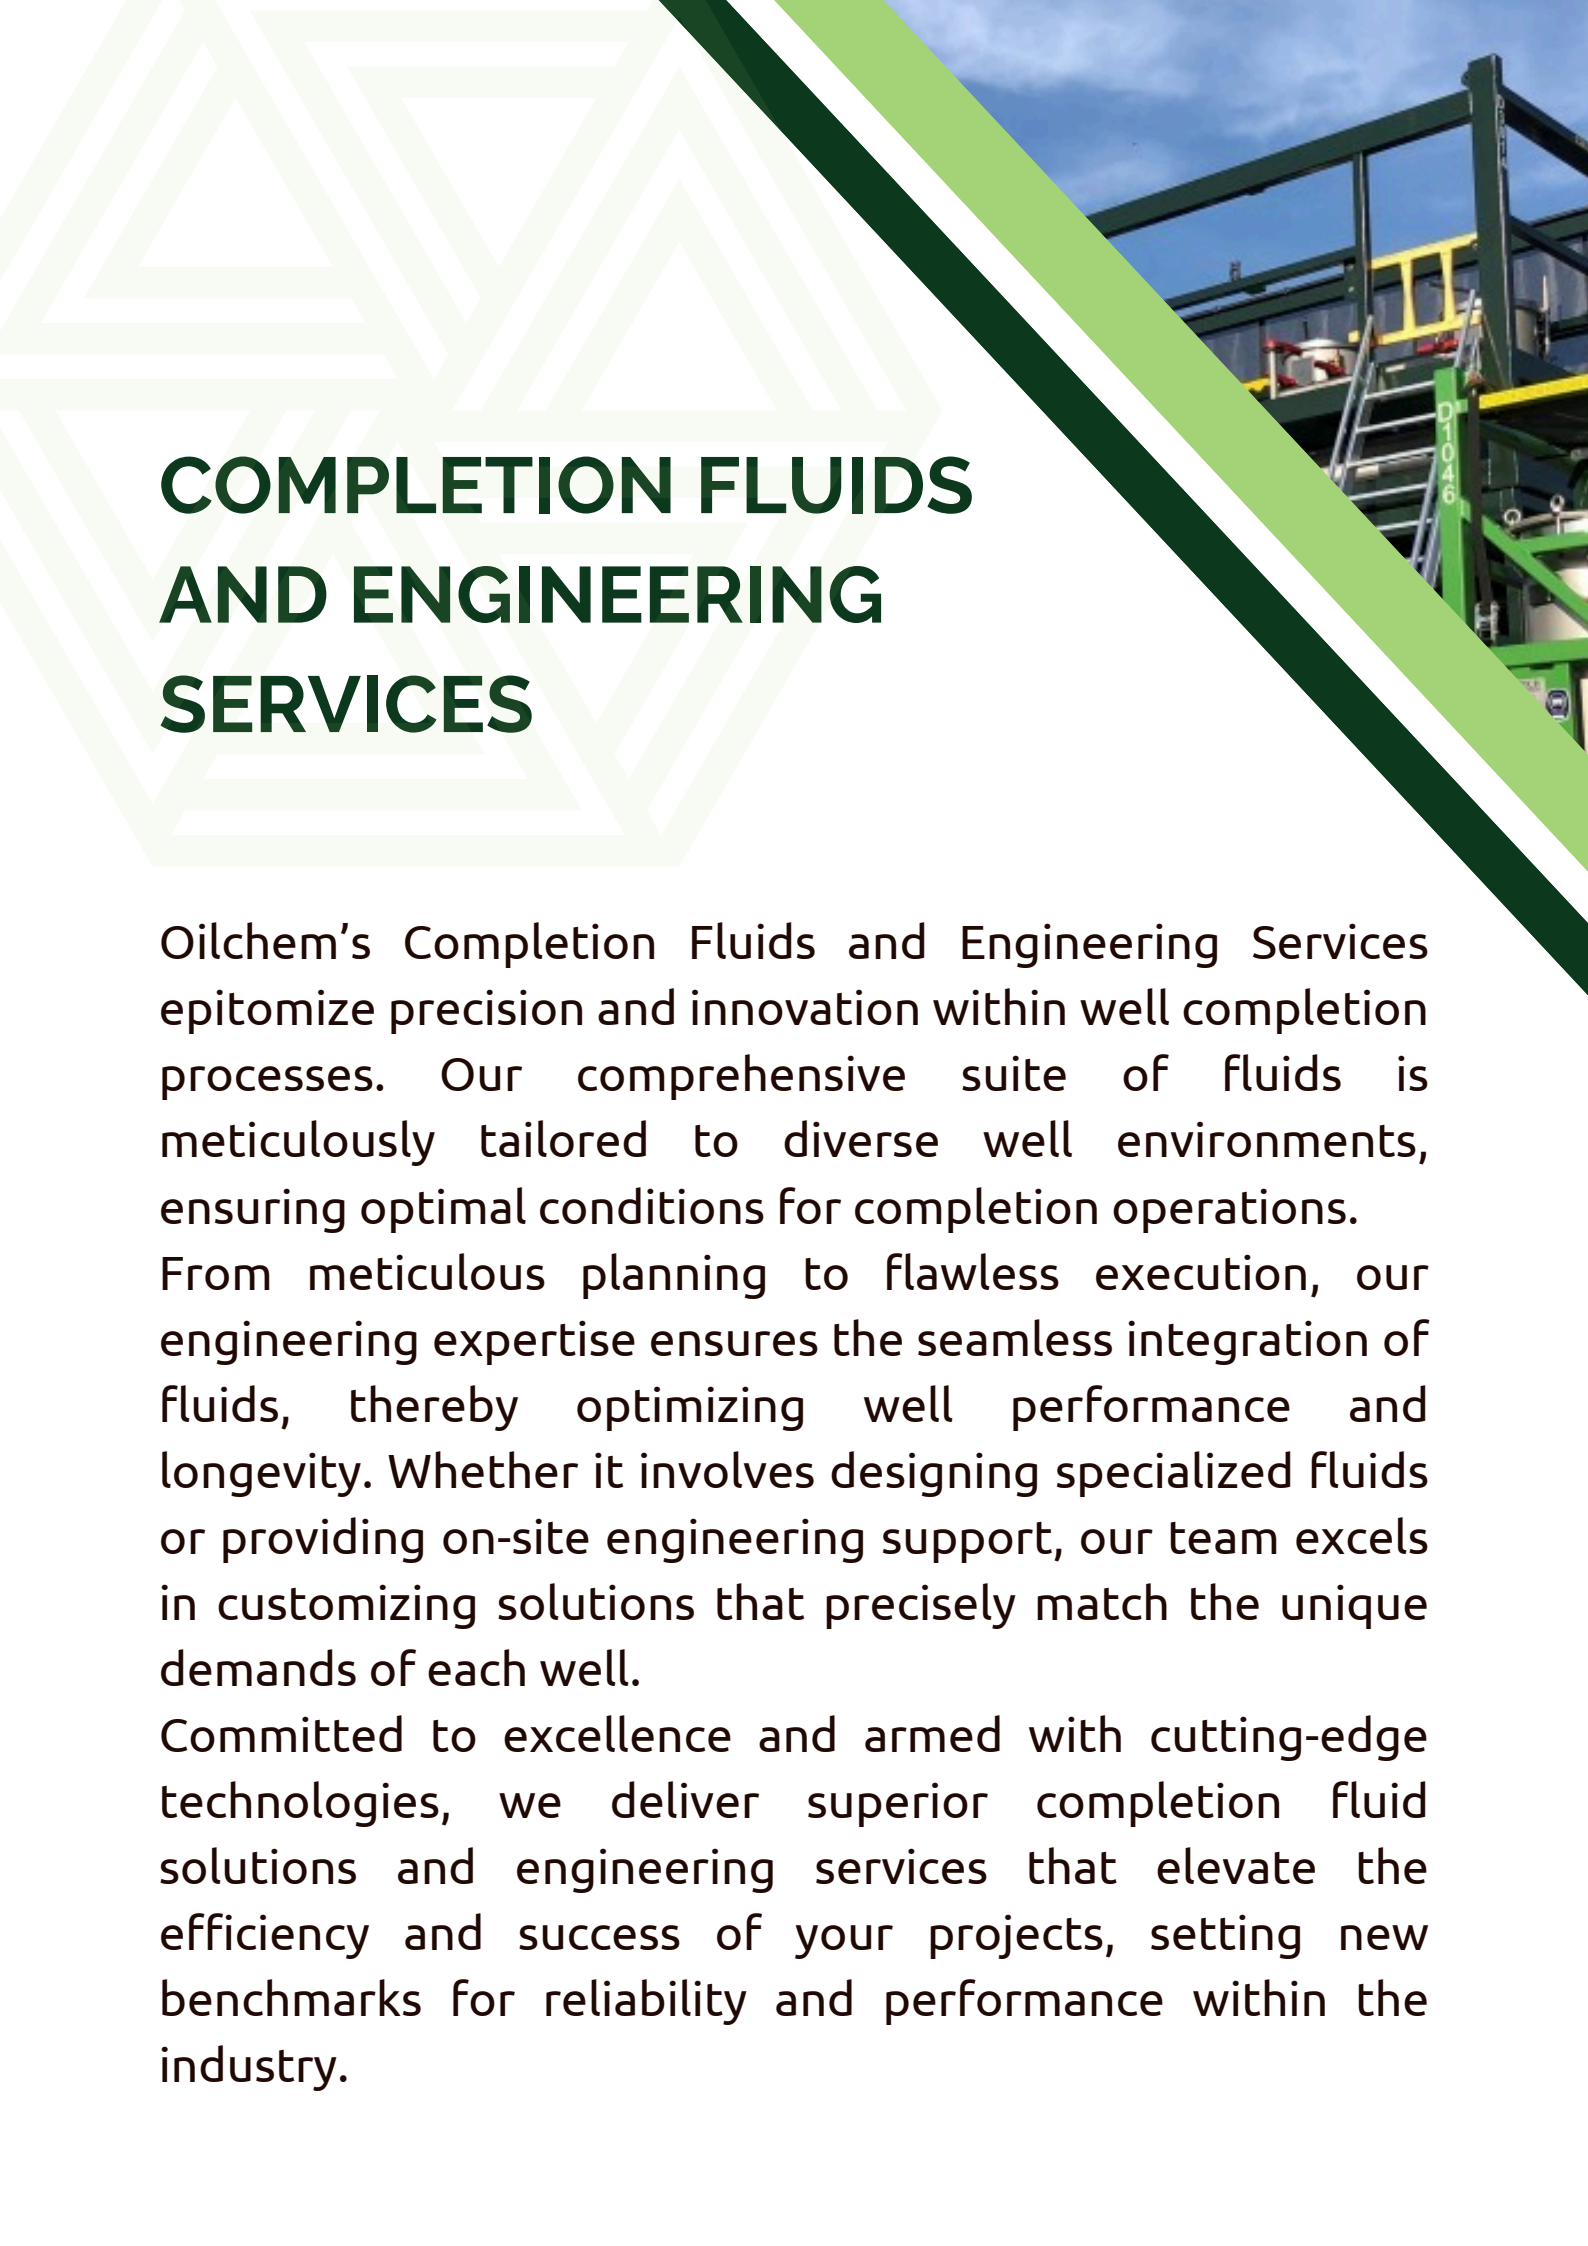

COMPLETION FLUIDS AND ENGINEERING SERVICES

Oilchem's Completion Fluids and Engineering Services epitomize precision and innovation within well completion processes. Our comprehensive suite of fluids is meticulously tailored to diverse well environments, ensuring optimal conditions for completion operations.

From meticulous planning to flawless execution, our engineering expertise ensures the seamless integration of fluids, thereby optimizing well performance and longevity. Whether it involves designing specialized fluids or providing on-site engineering support, our team excels in customizing solutions that precisely match the unique demands of each well.

Committed to excellence and armed with cutting-edge technologies, we deliver superior completion fluid solutions and engineering services that elevate the efficiency and success of your projects, setting new benchmarks for reliability and performance within the industry.

SERVICES

HIGH-QUALITY BENTONITE PRODUCTION AND MANUFACTURE

Bentonite, with its unique properties, holds a crucial role in drilling fluids and construction materials. Oilchem Chemical & Allied Industries Limited is your trusted source for high-quality Bentonite that excels in all critical applications. Our commitment to producing and maintaining Bentonite to the most exacting standards sets us apart in the industry.

We pride ourselves on our dedicated team of experts and state-of-the-art facilities that ensure the excellence and reliability of our Bentonite products. When you choose our Bentonite, you're choosing a product that consistently meets and exceeds industry requirements, ensuring the success of your projects.

With a deep understanding of the importance of Bentonite in your operations, we tailor our services to your specific needs, offering you not only superior quality but also the support and expertise to make your projects a resounding success. At Oilchem Chemical & Allied Industries Limited, we set new standards for high-quality Bentonite production and maintenance, always putting your satisfaction first.

SERVICES

HIGH-QUALITY LIME PRODUCTION & MANUFACTURE

Lime, a versatile and indispensable substance, plays a pivotal role in various applications, including pH control, wastewater treatment, and construction. At Oilchem Chemical & Allied Industries Limited, we are committed to delivering high-quality Lime that consistently exceeds your expectations. Whether you require Lime for environmental management, agricultural purposes, or construction projects, we have the expertise, facilities, and dedication to ensure that our products meet and surpass the highest standards.

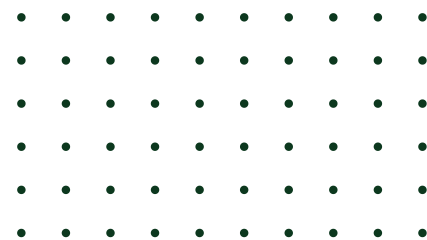

Our Lime products are renowned for their consistency, purity, and reliability. We have invested in cutting-edge technology and a team of experts to guarantee that each batch of Lime is produced to perfection. When you choose our Lime, you're choosing a product that not only meets industry standards but sets a new benchmark for excellence.

Oilchem Chemical & Allied Industries Limited is your reliable partner for all your Lime needs, where quality and customer satisfaction are paramount.

FLUIDSTEQ

SERVICES

FLUIDS SURVEY SERVICES

At Oilchem Fluidsteq, we excel in providing comprehensive fluids survey services. What sets us apart is our unwavering commitment to precision and safety.

Our highly skilled team employs cutting-edge technology to analyze, monitor, and test fluids, ensuring efficient and secure fluid management for our clients. We stand out through our accuracy and in-depth reporting, enabling informed decision-making and enhancing operational productivity. Whether in drilling, production, or transportation, our fluids survey services play a pivotal role in optimizing processes and minimizing risks. Oilchem Fluidsteq is exceptional because we prioritize excellence, safety, and efficiency in every aspect of our fluid survey services.

SERVICES

LOGISTICS & HAULAGE SERVICES

Our logistics and haulage services are exceptional because we tailor them to the specific needs of the energy industry. What sets us apart is our unwavering commitment to timeliness and cost-effectiveness.

Oilchem Fluidsteq understands that in the fast-paced world of oil and gas, every moment counts. We excel in providing efficient transportation solutions for bulk materials, equipment, and fluids, ensuring that our clients' operations are never delayed.

Our exceptional logistics and haulage services are marked by our dedication to meeting deadlines and managing resources responsibly, making us a trusted partner in this demanding industry.

SERVICES

PRODUCTION CHEMICALS SALES & SERVICES

At Oilchem Fluidsteq, our production chemicals and services are exceptional because they are designed to optimize oil and gas production efficiency. What sets us apart is our comprehensive approach, from chemical sales to application and management services.

We understand that every step in the production process is critical. We offer a range of production chemicals, including corrosion inhibitors, demulsifiers, and scale inhibitors, tailored to enhance operational performance.

Our exceptional team ensures that these chemicals are applied effectively, managing and maintaining production processes. Oilchem Fluidsteq is exceptional because we are committed to empowering our clients with comprehensive solutions for their production needs.

SERVICES

FLUIDS EQUIPMENT RENTALS

Oilchem Fluidsteq offers a diverse and exceptional range of fluids handling equipment for rent, and our commitment to excellence and reliability sets us apart. What distinguishes us is our meticulous maintenance and constant upgrade of our equipment.

We understand that dependable equipment is essential for the success of any project. Our state-of-the-art mud pumps, filtration systems, and related equipment are always in top condition, guaranteeing seamless operations.

We are exceptional because our equipment ensures efficiency and safety, providing our clients with the peace of mind that they can rely on our rentals for their critical operations.

SERVICES

PMS/AGO/ATK LABORATORY TESTS

Oilchem Fluidsteq's laboratory testing services for Premium Motor Spirit (PMS), Automotive Gas Oil (AGO), and Aviation Turbine Kerosene (ATK) are exceptional due to our state-of-the-art facilities and rigorous quality control. What sets us apart is our precision and reliability in delivering accurate test results.

Our exceptional laboratory tests enable clients to ensure the quality and compliance of their petroleum products.

We stand out because we combine cutting-edge technology with a commitment to excellence, providing clients with the confidence that their products meet the highest standards, thereby ensuring safety and reliability in their operations.

SERVICES

SOLIDS CONTROL EQUIPMENT SERVICES

Our solids control equipment services stand out due to our innovative approach to managing drilling waste and maintaining wellbore integrity. We are exceptional because of our dedication to minimizing environmental impact while enhancing drilling efficiency.

We provide cutting-edge solutions for solids control, such as shale shakers and centrifuges, to separate and manage drilling cuttings effectively. We ensure that waste is disposed of responsibly and that drilling operations run smoothly.

We are committed to sustainable practices and excellence, setting the standard for environmental responsibility in the oil and gas industry.

SUBSIDIARIES

OILCHEM DRILLING FLUIDS

SERVICES

DRILLING AND COMPLETION FLUID ENGINEERING SERVICES

Oilchem Drilling Fluids Limited is at the forefront of delivering comprehensive drilling and completion fluid engineering services.

Our seasoned team of experts combines technical proficiency with innovative solutions to optimize drilling operations. We specialize in customizing fluid designs tailored to unique well conditions, ensuring enhanced performance and cost efficiency. From formulation development to on-site support, we offer a full spectrum of engineering services, including fluid analysis, rheological modeling, and continuous monitoring.

Our commitment lies in facilitating seamless drilling processes by mitigating challenges and maximizing productivity through cutting-edge engineering strategies.

SERVICES

DRILLING AND COMPLETION FLUIDS EQUIPMENT RENTALS

Oilchem Drilling Fluids Limited offers a diverse inventory of top-quality drilling and completion fluids equipment available for rent. Our extensive fleet comprises cutting-edge machinery and tools essential for various drilling operations.

From mud pumps to filtration units and specialized mixing systems, our equipment rentals cater to diverse project requirements. We prioritize reliability, efficiency, and safety, providing well-maintained equipment along with comprehensive technical support. With flexible rental options and a commitment to meeting client needs, we empower seamless access to high-performance equipment essential for successful drilling and completion endeavors.

SERVICES

DRILLING FLUIDS LABORATORY SERVICES

At Oilchem Drilling Fluids Limited, our state-of-the-art laboratory facilities are dedicated to providing precise and reliable drilling fluids testing services.

We employ advanced analytical techniques and methodologies to assess fluid properties, composition, and performance characteristics. Our laboratory services encompass a comprehensive range of tests, from basic fluid properties to specialized analyses, enabling accurate diagnostics and formulation enhancements.

With a focus on quality assurance and rapid turnaround times, our expert team ensures that clients receive detailed insights and actionable recommendations for optimal drilling fluid solutions.

SUBSIDIARIES

OILCHEM MUD SCHOOL

Training Programs

Our Mud Engineering Training is second to none. With a rich history in the oil and gas industry, our comprehensive program is led by industry experts. We provide hands-on experience and an industry-focused curriculum, preparing students to excel in the field. Our track record of producing successful professionals sets us apart.

Consulting Services

Our consulting services offer invaluable expertise in mud engineering, drilling fluids, and wellbore management. With a team of seasoned professionals, we provide tailored solutions to complex industry challenges. Our experience, commitment to innovation, and practical approach make us the top choice for consulting in the energy sector.

Fluid Analysis

Our fluid analysis services use cutting-edge technology to ensure the optimal performance of drilling fluids. With state-of-the-art equipment and a deep understanding of fluid dynamics, we offer accurate and timely analysis. We are the preferred choice for companies seeking to maintain the integrity and efficiency of their drilling operations.

Custom Fluid Formulation

Our custom fluid formulation service is a testament to our commitment to innovation. We develop tailor-made drilling fluids to suit the specific needs of each project. Our expertise, in-depth research, and industry collaboration make us the ideal partner for companies aiming to maximize drilling efficiency.

Quality Control and Assurance

Quality control and assurance are at the core of our services. We meticulously ensure that drilling fluids meet the highest industry standards. With our rigorous testing, attention to detail, and commitment to safety, clients can trust us to deliver fluids that consistently perform at their best.

Quality Control and Assurance

Quality control and assurance are at the core of our services. We meticulously ensure that drilling fluids meet the highest industry standards. With our rigorous testing, attention to detail, and commitment to safety, clients can trust us to deliver fluids that consistently perform at their best.

Research and Development

Our focus on research and development sets us apart. We invest in pioneering technologies and methodologies to address industry challenges. With a dedicated R&D team, we consistently innovate and push the boundaries of mud engineering. This makes us the preferred choice for companies seeking cutting-edge solutions.

Environmental Compliance

We are dedicated to environmental responsibility. Our services are designed to meet and exceed environmental compliance standards. We take a proactive approach to minimize the impact of drilling operations on the environment. Companies can count on us for eco-friendly solutions that align with industry regulations.

Documentation and Reporting

vAccurate and thorough documentation is our hallmark. We provide detailed reporting and documentation services to ensure transparency and compliance with industry requirements. Our commitment to precision and clarity in reporting makes us the trusted choice for companies seeking reliable documentation for their projects.
